### BIG IDEAS

**Photography** is a unique art form that captures images for artistic expression.

Traditions, perspectives, worldviews, and stories are shared through aesthetic experiences.

Growth as a photographer requires time, patience, and reflection.

The creation of photographs relies on the interplay of mind and body.

Photography offers unique ways of exploring our identity and sense of belonging.

### Learning Standards

#### Curricular Competencies

**Students are expected to be able to do the following:**

**Explore and create**
- Create photographic works using **sensory inspiration**, imagination, and inquiry
- Explore photographic possibilities and take **creative risks**
- Express meaning, intent, and emotion through photography
- Create photographic images with an audience in mind
- Develop and refine photographic skills and techniques in a range of **styles** and **genres**
- Demonstrate safe and responsible use of materials, tools, and work space

**Reason and reflect**
- Describe and analyze how photographers use materials, technologies, processes, and environments in art making
- Recognize and evaluate design choices in photographic works
- Develop personal answers to **aesthetic questions**

**Communicate and document**
- **Document**, share, and appreciate photographic images
- Demonstrate respect for self, others, and **place**
- Communicate and **respond** to social and environmental issues through photography

#### Content

**Students are expected to know the following:**

- **elements** of visual art
- **principles of composition**
- **image development strategies** in photography
- **materials**, processes, techniques, and **image-making technologies**, used in one or more types of photography:
  - **digital photography**
  - **darkroom photography**
  - **alternative photographic processes**
- **photo chemistry** (if using film) or **alternative chemical processes**
- **creative processes**
- **behaviours** of light:
  - images formed by lenses and mirrors
  - effects of translucent, transparent, and opaque objects
- **ways** of sensing light:
  - **optical instruments**
  - parts and functions of cameras
## Area of Learning: ARTS EDUCATION — Visual Arts: Photography

### Grade 10

<tbody>
<tr>
<td><strong>Connect and expand</strong></td>
<td>• role of the photographer and viewer</td>
</tr>
<tr>
<td>• Create photographs that demonstrate personal, cultural, social, environmental, and historical contexts</td>
<td>• influence of <strong>visual culture</strong> in social and other media</td>
</tr>
<tr>
<td>• Explore First Peoples perspectives and knowledge, other <strong>ways of knowing</strong>, and local cultural knowledge to gain understanding through photography</td>
<td>• history of photography</td>
</tr>
<tr>
<td>• Engage in <strong>digital citizenship</strong> throughout the photographic process</td>
<td>• traditional and contemporary First Peoples worldviews, stories, and history as expressed through photography</td>
</tr>
<tr>
<td></td>
<td>• ethics of <strong>cultural appropriation</strong> and plagiarism</td>
</tr>
</tbody>
</table>
### Big Ideas – Elaborations

- **Photography**: for example, darkroom, digital, and alternative photography
- **aesthetic experiences**: emotional, cognitive, or sensory responses to works of art

### Curricular Competencies – Elaborations

| **sensory inspiration**: ideas inspired by sensory experiences such as the feeling of rain on our face or the sound of a dog whimpering |
| **creative risks**: make an informed choice to do something where unexpected outcomes are acceptable and serve as learning opportunities |
| **styles**: Photographic works that share common visual characteristics can be described as belonging to the same artistic style. |
| **genres**: categories of photography similar in form, style, or subject matter (e.g., abstract, landscape, portraits) |
| **aesthetic questions**: questions relating to the nature, expression, and perception of artistic works |
| **Document**: through activities that help students reflect on and demonstrate their learning (e.g., drawing, visual journaling, constructing new works, compiling a portfolio) |
| **place**: any environment, locality, or context with which people interact to learn, create memory, reflect on history, connect with culture, and establish identity. The connection between people and place is foundational to First Peoples perspectives on the world. |
| **respond**: through activities ranging from reflection to action |
| **social and environmental issues**: occurring locally, regionally, nationally, and/or globally |
| **ways of knowing**: First Nations, Métis and Inuit, gender-related, subject/discipline-specific, cultural, embodied, intuitive |
| **digital citizenship**: using information and social sharing technology in a way that is respectful of self, others, and privacy laws |
Content – Elaborations

- **elements**: colour, line, shape, space, texture, light, exposure, contrast
- **principles of composition**: balance, rule of thirds, point of view, leading lines, framing, emphasis, movement, pattern, rhythm, unity, simplicity, depth, focal point
- **image development strategies**: cropping, layering, colour manipulation (e.g., white balance, hue/saturation adjustment), rotation, multiplication, fragmentation, photomontage, elaboration (e.g., digital manipulation, addition of other materials to a photo)
- **materials**: of photography (e.g., printing ink, photo paper, various types of film, chemicals)
- **image-making technologies**: in photography, any image-making technology, such as cameras, lenses, lighting equipment, enlargers, computers, scanners, digital imaging software, accessories, and other pieces of equipment; could also include improvisational use of miscellaneous items
- **digital photography**: uploading, formatting, editing
- **darkroom photography**: developing and enlarging film
- **alternative photographic processes**: pinhole, cyanotype, solargrams/sunprints, solargrafia, scenography
- **photo chemistry**: includes developer, stop, fix, and other chemicals
- **alternative chemical processes**: cyanotypes, Van Dyke Brown photographic processing
- **creative processes**: the means by which an artistic work (in dance, drama, music, or visual arts) is made; includes multiple processes, such as exploration, selection, combination, refinement, reflection, and connection
- **optical instruments**: lenses, focus scopes
- **visual culture**: aspects of culture that rely on visual representation
- **cultural appropriation**: use of a cultural motif, theme, “voice,” image, knowledge, story, song, or drama, shared without permission or without appropriate context or in a way that may misrepresent the real experience of the people from whose culture it is drawn
